

# **HISTORY MADE AS FINAL ARIZONA BALLOT INSPECTIONS COMPLETED – Huge Preliminary Report Expected Monday When True Number of Ballot Totals Announced**

By [Jordan Conradson](#) Published June 25, 2021

AZ Audit Friday, June 25, 7:20 PM

**The Arizona Audit officially completed both the hand count and paper evaluation inspections on Friday.**

**The audit workers will now vacate Veterans Memorial Coliseum and prepare to deliver a report to the Arizona Senate.**

**The Gateway Pundit reported earlier that this was taking place but it was made official by a tweet from @ArizonaAudit.**

Audit Update: Paper examination and counting are finished today. Thank you to all the amazing Arizona volunteers who made this audit possible!

**Earlier this afternoon, volunteers slammed a box closed and cheered in celebration after the final ballots were inspected.**

**TGP reported that the results will be released in two phases:**

**1.) On Monday we may see a preliminary report, which details the accuracy of the number of certified ballots.**

**2.) We then expect to see a full forensic report which details the forensic images and ballot findings.**

**This is HUGE.**

**On Monday or soon after, we will know the true number of ballots that were cast in Maricopa County. If it is drastically different than the number of certified ballots, as expected with the discrepancies found, there will be severe consequences for Doug Ducey and Katie Hobbs.**

The Arizona State Senate will need to consider decertifying the results if they cannot prove that Biden was the winner. Attorney General Mark Brnovich will need to initiate an investigation into those involved in the scam and the cover-up.

Eric Greitens says that decertification is the next step and the freight train will continue with even more steam.

**Since the beginning, audit officials have been reporting significant discrepancies in the total number of ballots.**

This was just one of many issues encountered along the way as it seems county officials have done everything in their power to prevent this audit from finding the truth. Since day one, legislative subpoenas for Dominion routers and passwords have been violated and it leaves us wondering why.

**On Monday, We will have the accurate total number of ballots that were received during Maricopa County's 2020 election.**

**Will the totals add up?**
