

Dr. Shiva Set to Testify Before House Oversight Committee on Arizona Forensic Audit Then Suddenly Removed from Roster Later This Afternoon

The House Committee on Oversight and Reform will hold a hearing Thursday to attack the Arizona audit and label it a “hyper-partisan” election subversion effort that “failed to find any fraud.”

Of course, this is a lie.

The Arizona audit found hundreds of thousands of ballots cast that were possibly fake, and numerous law violations occurred before, during, and after election day.

The audit was a non-partisan mission to find out what really happened. Democrats, Republicans, and Independents volunteered for this historic full forensic audit.

Chairwoman of this committee, hyper-partisan, and radical leftist New York Congresswoman Carolyn B. Maloney fought vigorously to impeach President Trump again after he left office.

Now, Maricopa County Supervisors Jack Sellers and Bill Gates will speak at this hearing tomorrow in Washington DC.

The announcement of tomorrow’s hearing was presented in a [press release](#) slandering the Arizona audit and those involved, citing George Soros’s Brennan Center For Justice and other Soros News Propaganda for evidence.

Dr. Shiva Ayyadurai, an expert in pattern recognition and computer science, will also be heard at this presentation to defend his findings and the work of the Arizona audit.

Oversight Committee to Hold Hearing on Partisan Arizona Election “Audit” and Threats to Democracy

Washington D.C. (October 6, 2021)— On **Thursday, October 7, 2021, at 10:00 a.m. ET**, The Committee on Oversight and Reform will hold a [hearing](#) to assess the election “audit” in Maricopa County, Arizona, conducted by Cyber Ninjas, Inc., and how this and similar audits undermine public confidence in elections and threaten our democracy.

In April 2021, the Arizona State Senate hired Cyber Ninjas to conduct an audit of the 2020 election results in Maricopa County, Arizona, even though the [company](#) had no prior federal election audit experience. Since then, significant questions have been raised regarding the “[dark money](#)” organizations funding the audit, the [impartiality](#) of the company, and the [mismanagement and insecure audit practices](#) that have jeopardized the integrity of ballots and voting machines.

After six months and nearly seven million dollars spent, Cyber Ninjas’ [final audit report](#) failed to find any fraud, contrary to the conspiracy theories from the audit’s backers.

The hearing will examine how, despite failing to find any fraud, Cyber Ninjas’ audit has already inflicted grave damage to our democracy. The audit has threatened the integrity of Arizona’s elections, inspired [similar hyper-partisan audits](#) in other states, and been used to justify dangerous state election subversion laws.

At the hearing the Committee will hear from two elected Republican officials from Maricopa County, Arizona, who refused to accept the “Big Lie” and are speaking out about the dangers of this partisan audit.

The Committee also [invited](#) the CEO of Cyber Ninjas, Doug Logan, to testify. Mr. Logan informed the Committee less than two days before the hearing that he was unwilling to testify, declining the opportunity to defend his company’s highly questionable, partisan audit under oath.
