Arizona State Senator Wendy Rogers is leading the calls for arrests, decertification in Arizona, and nationwide election audits in America.

Last week on Victory Channel’s “Flash Point” with Gene Bailey, State Senator Wendy Rogers demanded arrests by Arizona Attorney General Mark Brnovich.

Senator Rogers reminded everybody that the evidence is in the hands of Attorney General Brnovich and they even captured photographic evidence of individuals deleting data from the Elections Management Server.

These individuals have been identified by name and this information has been delivered to Mark Brnovich.

State Senator Rogers needs all Americans to contact Arizona Attorney General Mark Brnovich to demand a full criminal investigation, [HERE](#), Sign the nationwide [petition](#) to decertify the Arizona 2020 Presidential Election, and push your State Legislators to sign the Audit 50 States Letter.

Rogers: We’re just inundated here in Arizona with illegal immigration. Elections have consequences and stolen elections have worse consequences. We’re the only state that’s done a deep dive cyber forensic audit of 2.1 million ballots. As many of you know we had the final hearing on that on the 24th of September. **It’s now in the hands of our Arizona Attorney General Brnovich, and I have been riding hard very strongly on him to make arrests. We have imagery of three different individuals who deleted data. This is evidence that was put forward on September 24th.** There is a hue and cry for accountability, and **we want arrests made.** We want to proceed with getting to the bottom of the truth of 2020

Bailey: Yeah, we all want to get to the bottom of that, but it seems like we’re the only ones, nobody in the media wants to get too concerned about it. So, Senator, what can we do, what can the rest of the people watching this program, is there anything we can do to help Arizona When it comes to putting some pressure to get this stuff looked at in a deeper, more serious way?

Rogers: Absolutely, you can contact Arizona Attorney General Brnovich, and tell him how strongly you feel about him following through on the evidence that he has. You can also, if you would, please go to my website which is WendyRogers.org and on the landing page in the upper right corner, click on the link that says you want to sign to decertify the Presidential Election of 2020. You will be joining over 1 million Americans who've already signed at WendyRogers.org. Also, I have put out a letter, we call it the Audit 50 States Letter that we need every possible State Senator, and State Representative from all over the nation to sign, to recall the electors in their state. We already have had over 100 State Senators and State Representatives sign this Audit 50 States Letter. Please communicate to me through team@WendyRogers.org, and again folks this is based on the fact that in the US Constitution, the Founders gave the State Legislatures the plenary power to oversee the US presidential election. And so it is up to State Senators and State Representatives to understand what their role is when they took their oath, to sally forth and be strong. Every state needs to have a few so if you out there listening, know that there are one or two State Legislators in your state, who are strong for election integrity, you need to tee them up. Introduce them to me through team@WendyRogers.org, and we will get them signed up. Don't send me any wishy washy people. I only want strong resolute State Legislators who understand that we are on a very precarious precipice right now in this country.

The Gateway Pundit [reported](#) that, Arizona State Senator Wendy Rogers' Audit 50 States Letter, or as she has previously named it, the "New Declaration of Independence", has been signed by 138 legislators in 38 states.

Just three days later, Rogers announced that eight more names have been added to the list. Demand that your legislators email team@wendyrogers.org to add their names.

Rogers: The latest list. Keep getting me state rep and state senator signers and have them email to team@wendyrogers.org. Strong states who are doing their constitutional duty terrifies the communists.

Sign Senator Wendy Rogers' petition to decertify Arizona's 2020 Presidential election [here](#), and pressure your State Legislators to add their names to the Audit 50 States Letter by emailing team@wendyrogers.org immediately.

Arizona Attorney General Mark Brnovich has cold hard evidence of election fraud and he must now save our great Country by arresting and trying those accountable for this heinous crime.
