**TICK TOCK...Detroit election officials and Michigan's dirty Secretary of State Jocelyn Benson have officially been put on notice.**

After years of being gaslighted by some of the most dishonest people in election history, The Gateway Pundit, along with some of the most respected election investigators in the state, are about to blow the lid off the lies about Detroit's "secure" 2020 election that helped to give Joe Biden an inexplicable victory in the must-win state of Michigan.

On Election Night 2020, President Donald J. Trump appeared to hold commanding leads in key battleground states — approximately 100,000 votes in Wisconsin, 300,000 in Michigan, and 700,000 in Pennsylvania. For Joe Biden to erase those margins, his performance in the outstanding vote would have needed to be dramatically stronger, particularly in heavily Democratic strongholds such as Detroit, Milwaukee, and Philadelphia.

As the night wore on, reports emerged — often inconsistent — that some precincts had stopped counting, sent workers home, or restarted tabulations under unclear circumstances. To this day, there is confusion and disagreement over the extent of these pauses and whether any state laws or procedures were ignored in the process. What cannot be disputed is that vote totals from Wisconsin, Michigan, and Pennsylvania continued to change throughout the night, long after many Americans had gone to bed.

By the early morning hours of November 4, Wisconsin had flipped blue, followed soon after by the must-win state of Michigan. Days later, Georgia and Pennsylvania flipped for Biden as well. For many observers, the abrupt turnarounds — combined with conflicting reports of election-night disruptions — fueled deep skepticism about the integrity and transparency of the process.

Michigan lawmakers and election integrity investigators have spent an untold number of hours and resources to prove the election in Detroit was rigged. To date, they have not been able to secure the documents needed to verify what they believe happened that led to an inexplicable victory for Joe Biden in the presidential race.

**Enter Yehuda Miller—an American hero.**

Yehuda Miller, a New Jersey resident, explained to The Gateway Pundit that he used to be “non-political,” until after the 2020 election, when he found himself questioning the hotly-contested election results and the subsequent lack of transparency by election officials in key swing states whose results handed the presidency to the unremarkable and by many accounts, the inchoherent Democrat candidate Joe Biden.

The Gateway Pundit met with Yehuda Miller, who can be seen proudly standing next to one of the largest election FOIA hauls in U.S. history on the same day he picked up the documents from the City of Detroit.

Last week, Mr. Miller contacted me with news that he had just obtained almost 1 million election documents from the 2020 election via FOIA from the City of Detroit and Wayne County. Yehuda Miller's request for the documents was originally rejected. Undeterred by their denial of public records, Miller hired a top FOIA attorney who successfully sued for the documents before the expiration of the 22-month federally mandated period, which requires election officials to retain all election records from all general, special, or primary elections. We are pleased to report that Mr. Miller has now secured copies of the actual absentee ballots, the signed envelopes that contained the absentee ballots, absentee ballot applications, QVF files, and total tapes from each (including the OUT OF BALANCE) Detroit precincts.

Within hours of obtaining the electronic files and hard copies of the copied materials, The Gateway Pundit began working with top election integrity experts in Michigan to review the massive amount of data. A few months ago, Mr. Miller obtained a large portion of FOIA'd

materials from Wayne County, where Detroit is located, so his collection of data from the 2020 election in Detroit has now been completed.

Many in Michigan, who have become aware of his massive FOIA haul, are calling it a “miracle.”

The Gateway Pundit, who has broken more stories uncovering evidence of malfeasance, election irregularities, lies from top election officials like MI SOS Jocelyn Benson, and outright voter fraud than any other local, state or national news organizations, would like to personally thank Yehuda Miller for sharing this evidence with us and key election integrity experts in Michigan who are committed to revealing the truth about what really happened in the 2020 election in the City of Detroit.

**On the day after the election, The Gateway Pundit reported about a white van that delivered ballots in the early morning hours in the back hallway of the counting center. The Gateway Pundit founder, Jim Hoft, paid to obtain the surveillance footage from the back hallways of the TCF Center, where absentee ballots were being counted in Detroit.**

Thanks to a great deal of tedious work, the Gateway Pundit staff was able to prove that a black rental car was used to escort two white vans filled with absentee ballots in the wee hours of the morning on the day after the election. In the video, a gentleman dressed all in black (the uniform of supervisors inside the TCF counting room) can be seen entering the hallway and passing something to the driver of the vehicle through the window before the driver pulls away and the white van enters to begin unloading boxes of ballots. What was the supervisor handing the driver? How did the driver contact the supervisor to let him know they had discreetly entered the back hallway?

Watch the incredible footage here:

**Republican poll challengers were locked out of the room after the top election official in the TCF Center told them to take a break while they prepared the “military” ballots. Only a small percentage of the UOCAVA ballots are actually military voters or voters who are family members of the military.**

Democrat poll challengers and their counterparts, which included outside agitators, somehow knew to stay inside the counting room and ordered pizza to be delivered, while Republicans retreated for a short break to a room on another floor. When the Republicans returned to the counting room, they had been locked out. When Republican poll challengers began to chant “Stop the count!” leftist poll workers and Democrat poll challengers used their pizza boxes to cover the windows.

Never before seen video from inside TCF Center showing windows being covered up with pizza boxes & paper, while election workers & Dem poll challengers watch Republican poll challengers being tricked into leaving by a top election official and then locked out of the process. **When Michigan’s top election official, Democrat Secretary of State Jocelyn Benson, was asked by Detroit’s top radio host, the now-deceased Frank Beckmann, about the pizza boxes that were used to cover the windows and prevent the Republican poll challengers from watching the process, she did what she does best: she lied.**

MI SOS Jocelyn Benson is a LIAR.

**In 2022, the Gateway Pundit received surveillance footage from almost every absentee ballot drop box in Detroit. What we found was outrageous. Not one charge was filed as a result of our exposing multiple individuals and teams dropping off stacks of ballots while filming themselves.**

After hundreds of hours of poring through the video footage, we were able to share clips of USPS workers violating the US Postal Code by dropping stacks of ballots into the drop boxes instead of delivering them to the addresses on the envelopes, as well as individuals and teams working to drop off massive stacks of ballots while recording their activity with a cell phone. MI SOS Benson called the US Postal workers’ illegal activity “normal and legal” on the “fact-checking” tab of Michigan’s official Secretary of State website. MI AG Dana Nessel never commented on the videos.

The Gateway Pundit summarized our findings from the 2020 Detroit election drop box footage in a thirteen minute video:

**On August 8, 2023, the Gateway Pundit broke the story about [GBI Strategies/Empower Michigan](#), a voter registration group that was sending packages to clerks across the state of Michigan from a hotel in Auburn Hills, MI, filled with fake registrations.**

The group, which was funded by Joe Biden's presidential campaign and Democrat Senator Gary Peters (MI), was finally caught one month before the 2020 election when a supervisor working for GBI Strategies dropped off between 8,000 and 10,000 voter registrations, many, if not all of them, were fraudulent. No charges were filed, and after a lengthy two-year investigation by the MI State Police and Muskegon Police Department, the FBI took over the investigation. Several attempts have been made to get more information on the investigation into GBI Strategies, but the FBI refused, claiming it's an ongoing investigation.

**Prior to being named as the Deputy Director of the FBI, the former podcast host, Dan Bongino, suggested our report on GBI Strategies was the best evidence of mass voter fraud in the 2020 election, because we brought the "receipts."**

Is FBI Deputy Director Bongino investigating this Democrat funded group?

**And finally, in one of the most underreported stories, Detroit activist Ramon Jackson revealed to MI House Election Integrity Committee Chair Rachelle Smit and her committee how he uncovered what the Gateway Pundit and election integrity experts**

**in Michigan believe is one of the key ways elections are being repeatedly stolen in Detroit.**

The group collecting the information from Yehuda Miller is in support of criminal investigations.

**Please stay tuned, as the Gateway Pundit will be revealing our exclusive findings in the coming weeks.**
