

**The Ludlow School District is pushing the “transgender” agenda on Middle School children! Parents are shocked and outraged.**

***Terrible violations of children and parental rights are happening in Ludlow:***

- The Baird Middle School librarian (a woman who says she’s a man!) has stocked the shelves with books encouraging students to experiment with transgender and homosexual behaviors.
- Teachers and counselors are manipulating students to believe they can become opposite sex (“gender”). They are encouraging boys to use girls’ names (& vice versa) in class – but not telling parents this is happening.
- The school Superintendent, staff, and Ludlow School Committee have all been very hostile and intimidating toward parents who complain about this abuse.
- A Baird Middle School teacher has been removed from her position by the Principal and Superintendent because she exposed this to parents.
