

# Statement from The Zelenko Labs Family

Boca Raton, Florida, June 30th 2022 - It is with immense sorrow that we announce the passing of Dr. Vladimir "Zev" Zelenko. Dr. Zelenko was a physician, scientist, and activist for medical rights who touched the lives of millions of people. Some were saved through his role as a doctor, and even more were inspired by his words. His "Zelenko Protocol" saved millions and earned him a Nobel Prize nomination and the admiration of a U.S. President, among other prominent world leaders.

Born in socialist slavery, and then immigrating to the United States, Dr. Zelenko was the embodiment of the American dream - the child of poor immigrants who rose to success as a physician and a businessman. But Dr. Zelenko was more than a physician. As an activist and a businessman, he was also a man of deep faith, incredible love for his family, and a tireless inspiration to the company. But, perhaps most of all, Zev was our friend. The world knows the dynamic firebrand who never feared speaking truth to power or speaking up for issues he cared deeply about. Dr. Zelenko was a man of great, subtle humor and deep intellect. For every verbal jab he threw at the tired and incompetent establishment, a dozen more light-hearted laughs were spent with him and the team. Dr. Zelenko could laugh at himself as easily as others, and was always in great spirits, no matter the darkness that surrounded him - something that's easily overlooked in today's climate of hypersensitivity.

Some have already asked us what is next for Zelenko Labs. Though we have lost a leader, a friend, and an inspiration, the answer is simple: **Keep Fighting.**

This is not only what we think Dr. Zelenko would want, it is what he told us to do. And it is exactly what we will do. We will fight for his legacy. We will fight for the company that sustains his eight children and dozens of employees, and we will fight for you, our loyal customers and friends. Zelenko Labs will continue to deliver high-quality products, and we will protect Dr. Zelenko's legacy with the creation of the Z Freedom Foundation, which will support the causes that matter most to our beloved Zev.

Though Zev's chapters in the Book of Life have closed, his legacy is yet to be written. Join us and help write those next powerful and impactful chapters by helping us keep Zev's main mission of helping every single American live a healthier, happier, and more informed life, front and center. Help us keep that honorable vision a vibrant one in our hearts and woven into the very fabric of this great nation.

We look forward to standing shoulder to shoulder with you in the coming days. Stay tuned for more news from Zev's best and most powerful work.
