

A Reminder of the Efficacy of Chloroquine in Treating Coronavirus

By [Larry Johnson](#) Published December 15, 2021 [Story source: Gateway Pundit](#)

I do not recall seeing this article when it was published in May of 2020, but now that **we know the much heralded Covid vaccines do not prevent you from getting Covid or infecting others** with Covid, it is worth a look back to fully comprehend the disgraceful lying of much of the medical establishment.

The Virology Journal published research on 22 August 2005. The title?

Chloroquine is a potent inhibitor of SARS coronavirus infection and spread

The authors are distinguished researchers:

[Martin J Vincent](#),¹ [Bobbie R Erickson](#),¹ [Pierre E Rollin](#),¹ [Thomas G Ksiazek](#),¹ and [Stuart T Nichol](#)¹ worked at the Special Pathogens Branch, Division of Viral and Rickettsial Diseases, Centers for Disease Control and Prevention, 1600 Clifton Road, Atlanta, Georgia, 30333, USA.

The other three—[Eric Bergeron](#),² [Suzanne Benjannet](#),² [Nabil G Seidah](#),—represented the Laboratory of Biochemical Neuroendocrinology, Clinical Research Institute of Montreal, 110 Pine Ave West, Montreal, QCH2W1R7, Canada

Here is what [they found](#):

We report, however, that chloroquine has strong antiviral effects on SARS-CoV infection of primate cells. These inhibitory effects are observed when the cells are treated with the drug either before or after exposure to the virus, suggesting both prophylactic and therapeutic advantage. . . .

Chloroquine is effective in preventing the spread of SARS CoV in cell culture. Favorable inhibition of virus spread was observed when the cells were either treated with chloroquine prior to or after SARS CoV infection. In addition, the indirect immunofluorescence assay described herein represents a simple and rapid method for screening SARS-CoV antiviral compounds.

I want you now to think about the massive propaganda attack launched on physicians and President Trump who recommended the use of Hydroxychloroquine as a treatment for Covid. When Hydroxychloroquine was used early on in the Covid infection, Doctors around the world reported outcomes consistent with the findings of this research.

What shocks and disgusts me is that this research was carried out by scientists at the CDC. Why then did the CDC ignore these findings and ridicule anyone who dared suggest there was a cheap, readily available, effective treatment for Covid. Those physicians, pundits and politicians who pushed the lie that Chloroquine had no role to play in fighting Covid have blood on their hands.

This really is a story of corruption. Compromised Doctors like Anthony Fauci pushed largely useless vaccines whose main purpose was to enrich pharmaceutical companies and those political insiders who got the heads up to invest in those companies.
