CDC Admits that the Covid Pandemic Was the Product of an Inappropriate Test

PAUL CRAIG ROBERTS

Quietly without media attention, the Centers for Disease Control and Prevention (CDC) has withdrawn the PCR process as a valid test for detecting and identifying SARS-CoV-2.

“After December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS-CoV-2 only.” https://www.cdc.gov/csels/dls/locs/2021/07-21-2021-lab-alert-Changes_CDC_RT-PCR_SARS-CoV-2_Testing_1.html

The CDC admits that the PCR test cannot differentiate between SARS-CoV-2 and influenza viruses.

I reported several months ago that the “health authorities” had reached this decision but were withholding its implementation until the end of 2021. **They needed the fake test to keep the fear going in order to achieve as much vaccination, and therefore as much profit, as possible.**

It is extraordinary that the CDC’s withdrawal of the test received no attention from the media or politicians.

Dr. Kary Mullis, Nobel Laureate and inventor of the PCR process said several years ago that **“the PCR is a process. It does not tell you that you are sick.”** It was never meant to be a Covid test.

Dr. Pascal Sacré, the famous Belgian specialized in critical care, said that the RT-PCR process was misused and applied as a relentless and intentional strategy to create the appearance of a pandemic based on phony test results and not actual Covid patients in order to violate human and constitutional rights of citizens.

As I have reported consistently, **the PCR test was intentionally run at high cycles that were known to produce false positives. Most of the alleged “Covid cases” were nothing but intentional fabrications.** Hospitals were part of the deceptive scam, because they were incentivized by financial rewards to report practically all deaths as

Covid deaths. It was easy to do as every dying person from any cause was given a PCR test that produces up to 97% false positives and thereby declared a “Covid death.”

The question before the world is whether the “health authorities,” really just shells for Big Pharma profits as Robert F. Kennedy, Jr. has proved, the politicians and the lying media will be held accountable for the injuries and deaths caused by the “vaccine” itself, for the lost and closed businesses caused by the senseless lockdowns, and for the extraordinary violations of the Nuremberg Laws by mandated vaccination.

The people of the world need to understand that the orchestrated “Covid pandemic” is the most horrible mass crime ever committed in human history. It was the “Free West” that organized and perpetrated this horrible crime.

The people who trusted Fauci, who trusted Biden, who trusted the medical establishment, and who trusted the media had their lives ruined.

Will the human race be too stupid to comprehend its deception and the consequences for human rights and human freedom? Will they continue to trust authorities and media that deceived them with a controlled narrative that required silencing and punishing all the real experts? If so, they will have been effectively enslaved.

Bombshell: CDC No Longer Recognizes the PCR Test As a Valid Method for Detecting “Confirmed Covid-19 Cases”?

In the Course of the Next FIVE Days, the PCR test in the US will be Declared Invalid

*“The PCR is a Process. It does not tell you that you are sick”. **Dr. Kary Mullis**, Nobel Laureate and Inventor of the RT-PCR, passed away in August 2019.*

*This misuse of the RT-PCR technique is applied as **a relentless and intentional strategy by some governments to justify excessive measures** such as the violation of a large number of constitutional rights, ... under the pretext of a pandemic **based on a number of positive RT-PCR tests, and not on a real number of patients**. Summary

Smoking Gun: *As of January 1, 2022, the CDC in a request to the FDA withdraws its endorsement of the RT-PCR test.*

The CDC acknowledges that the PCR test does not effectively differentiate between Covid-19 and Seasonal Influenza.

Amplly documented and analyzed by numerous scientists, the PCR test does not detect or identify SARS-CoV-2 and its variants.

While the CDC does not officially acknowledge that the PCR test is invalid, it nonetheless calls for it to be withdrawn.

If the PCR test is invalid as suggested by the CDC's statement, the 260 Million so-called "Confirmed Covid-19 Cases" collected and tabulated Worldwide since the outset of the alleged pandemic are meaningless.

There is no Pandemic.

In the Course of the Next FIVE Days the RT-PCR Test in the US will be Declared Invalid?

In a bombshell decision, [the Centers for Disease Control and Prevention \(CDC\)](#) have withdrawn the insidious PCR test as a valid method for detecting and identifying SARS-CoV-2.

"After December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS-CoV-2 only."

In preparation for this change, CDC recommends clinical laboratories and testing sites that have been using the CDC 2019-nCoV RT-PCR assay **select and begin their transition to another FDA-authorized COVID-19 test.**

CDC encourages laboratories to consider adoption of a multiplexed **method that can facilitate detection and differentiation of SARS-CoV-2 and influenza viruses.** Such assays can facilitate continued testing for both influenza and SARS-CoV-2 and can save both time and resources as we head into influenza season. **Laboratories and testing sites should validate and verify their selected assay within their facility before beginning clinical testing.** (emphasis added)

It has taken them almost two years to recognize that the PCR test is flawed and invalid.

Read carefully, what this CDC directive admits is that [the PCR test cannot differentiate between "SARS-CoV-2 and influenza viruses"](#). **We have known this from the outset.**

This advisory by the CDC issued in July 2021 is to be enforced in the course of the next couple of weeks leading up to the January 1st, 2022 deadline.

Will it be carried out?? Visibly there is no transition towards "another authorized Covid-19 test".

The Covid-19 Omicron Christmas Lockdown

WHY is CDC waiting until December 31, 2021 to enforce the suspension of the invalid and flawed PCR test?

Seasonal influenza which starts in October has contributed to driving up the number of so-called "**Confirmed Covid-19 Cases**".

And in recent developments, these PCR positive cases are routinely being categorized as "**Confirmed Covid-19 Omicron Variant Cases**". It's also a period of the year when people catch a corona common cold which often results in a PCR positive.

This upward movement of PCR positive cases is now being **used by corrupt politicians to sustain the Omicron fear campaign as well as impose the "The Covid-19 Christmas Lockdown"**.

Millions of people Worldwide are lining up to be tested as well as vaccinated to "protect themselves" against SARS-CoV-2 (which cannot not under any circumstances be identified by the PCR test).

What this means is a Mea Culpa. A tacit recognition by the CDC and the FDA that **the entire data base generated by the PCR test is invalid.**

Almost a year ago, in January 2021, [the WHO questioned the validity of the PCR test](#) which it had itself put forth as a means to detecting and identifying SARS-CoV-2 at the outset of the alleged pandemic in January 2020.

The Data Base of the Alleged Covid-19 Pandemic

Several billion people in more than 190 countries have been tested (as well as retested) for Covid-19 using the PCR test which is flawed and invalid.

We are talking about approximately 260 million alleged “Confirmed Covid-19 Cases” (PCR positives) Worldwide.

The pandemic is said to have resulted in more than 5 million Covid-19 related deaths.

These are nonsensical and meaningless numbers. It’s a Big Lie.

And this data base is being used to justify the imposition of the Covid-19 mRNA “killer virus”, not to mention the “vaccine passport”.

Bear in mind, in recent developments, the PCR test is being routinely used to allegedly “identify” the variants including Delta and Omicron, which is an impossibility as well as a lie.

Scientific nonsense. PCR positive cases (which according to the CDC could be the result of seasonal influenza) are now being routinely assigned to the Omicron Variant:

“The decision by the government to reimplement the need for a PCR test from all individuals arriving in the UK from abroad on day two, with self-isolation until a negative [PCR] test is reported, while frustrating for those travelling, is essential in order to rapidly identify cases of infection with the Omicron variant and implement prompt isolation and targeted contact tracing to limit the spread of the variant in the UK. (emphasis added, [Guardian](#), November 27, 2021)

Health officials in New South Wales, **Australia**, have begun urgent testing after **two people who arrived on a flight from southern Africa overnight tested positive to the coronavirus**, [PCR test] (Reuters 27 November, 2021, emphasis added).

Without the Flawed PCR Test, the Covid Christmas Mandates Do Not have a Leg to Stand On

Smoking Gun: The CDC Says that the PCR Test is Invalid.

Does not differentiate between Covid-19 and Seasonal Influenza.

Does not detect or identify SARS-CoV-2 and its variants.

If the PCR test is invalid as confirmed by the “Horse’s Mouth” (aka the CDC), the 260 Million so-called “Confirmed Covid-19 Cases” collected and tabulated Worldwide since the outset of the alleged pandemic are meaningless.

There is no Pandemic.

And what the ongoing PCR Covid-19 testing does is to drive up the numbers and spearhead the fear campaign with a view to justifying the killer vaccine and the Christmas Lockdown. Crimes against Humanity?
