

1994 Depopulation Agreement Signed by 160 Nations of the United Nations

An agreement was signed that mandated reduction of the population of humans. WHY? Because they concluded the population growth is out of control and the world was running out of resources. Even Henry Kissinger called for reduction of the population to get rid of “useless eaters” during that time. In this video you can see for yourself the vary methods the have been using and are using today at a even more rapid pace to get the global population down between 500-million to 800-million by 2030. The narrator list many methods that are being used to meet their goals. It appears that manmade viruses and vaccines are the most popular he list along with fluoride in municipal drinking water; from jets spraying aerosolized toxic chemicals and viruses in the stratosphere under the guise and scheme of controlling global climate change (a.k.a. Chemtrails) by way of military aircraft; back in 1994, from the toxic spraying, sperm count in men had already been reduced by 50%; using the manmade modification and replication of the flu virus as a method for depopulation as is being done since 2019. Even more shocking is the narrator saying in 1994: *“The first strain of this new virus will be released into the public in the late 2017. So if we see a flu outbreak in late 2017, or 2018, we will know this is true!”* It has been proved true. It is that it was released in late 2019 early 2020. What did Dr. Fauci say back in 2017 after President Trump took office? He said that this administration would be faced with one of the worst pandemics ever. How did he know. Because he was involved in the plan of the more deadly manmade flu virus for which was labeled a COVID-19 virus that never existed in the first place. No one, absolutely no one, the FDA, CDC, the pharmaceutical companies never, ever had a single sample of a COVID virus. Even different universities asked for sample of a COVID virus for their labs and the response always was: “We don’t have a sample of the virus.” And as further proof that this was a flu virus, one doctor/scientist received 1,500 PCR swabs that were diagnosed as COVID that after testing, all 1,500 were type A or B influenza. He sent them to 7 University labs, and they came up with the same conclusion. As the inventor of the PCR test said, they cannot distinguish between any type of virus. They never were intended to. But the government continued to push them as an instrument to instill fears among the public to give them the incentive to take the COVID gene altering jab that Dr. Fauci said at rollout: *“It will not protect you from a COVID virus nor will it keep you from being a carrier of the virus.”* He also reveals the plan to use holographs by the military in the skies to give the appearance that alien spaceships are attacking the earth and using stealth bombers hidden in the holographs look like the fake alien ships are attacking them. The narrator states: *“While the true prevelars*

of the depopulation process have formulated the final stage of their sinister plan. In the year 2024, a global event will alter the course of mankind's future."
