“Rest easy my friend! My thoughts and prayers go out to the Regan Lewis family and all of her friends! You were an amazing friend and a down to earth person. You were thriving at life and accomplishing your dreams! You were taken way to soon and my heart hurts that you are gone. I know you are going to be watching down on all of your friends and family! I love and miss you,” said Emily Stoltz.

Leanna Huddle wrote, “Oh Regan, when I heard about the news I was devastated. When I found out that you had passed my heart broke. We may of had our differences but I still loved you either way. I still remember the time when I slept over at your house and I was afraid to ride bareback. They say God has a plan for all of us, but I didn’t think this would be one. Rest easy my friend, and may God take care of your beautiful soul up there.”

“Regan, oh how stubbornly beautiful you were. Your work ethic and determination was admirable and your selflessness radiated to everyone around you. We had plans of becoming an unstoppable doctor/nurse duo and I promise to keep up my end of that plan. I am so proud of you and all you have overcome. You truly are my motivation and inspiration and I will forever be grateful for our friendship. Tubby is waiting for you upstairs and will keep you safe, so you better give him the biggest hug ever! Fly high Regan, LPN,” said Kourtney Monk.
